**THIS ASSISTANCE IS NOT AUTOMATIC! YOU MUST SIGN UP THROUGH NSEDC AS INDICATED ON THE LEFT.**

During February, NSEDC and NJUS will work together to review submitted program applications to confirm eligibility and develop the final list of participants to receive the credit.

**The credit for Nome residents is planned to be applied to March 31, 2016 utility statements and will apply toward the payment due on April 25, 2016. January and February utility statements must be paid by their normal due dates. The subsidy assistance is not retroactive and will not be applied to clear any past due balance.**

**On behalf of our customers – A sincere thank you is extended to NSEDC's Board of Directors for providing this much needed assistance to our customers, and to NSEDC Management and Staff for working cooperatively with NJUS to insure the assistance is extended to as many eligible customers as possible.**
